

### SAMPLE CALCULATIONS OF CONTRIBUTION REBATES

The amount of rebate paid to a contributor is based upon the total amount of all the contributions the contributor made to candidates in the election. For example, if a contributor gave \$500.00 each to three different candidates, the rebate is calculated based on the total contribution of \$1,500.00. The rebate payable on the \$1,500.00 would be \$741.67.
